

# The Gorilla SSP<sup>®</sup> Enrichment Database

**Name of Item:** Gorilla Fountain

**Submitted by:** Zoo Atlanta

## Items Needed:

1. 5 Gallon Bucket
2. 120 Volt Fountain/Fish Tank Pump
3. 1/2" PVC pipe (25-30" long)
4. 1 heavy duty zip tie
5. 1 PVC "T" junction
6. Water

## Construction Directions:

1. The 1/2" PVC pipe should fit snug to the fountain/fish tank pump.
2. Place the PVC "T" junction at the other end (top) of the pipe.
3. Now the assembly can be placed into the bucket, the pump sitting flat on the floor of the bucket. The pump plug will lay over the top edge of the bucket.

## The Gorilla SSP<sup>®</sup> Enrichment Database

4. Secure the PVC pipe to the bucket wall using a zip tie strapped to itself through the bucket wall.
5. Fill the bucket half way with water. Plug pump in to outlet and water should begin to fall from the top of the PVC pipe. Water can also be colored using food coloring to change up visual enrichment.
6. KEEP OUTSIDE OF ANIMAL CAGE.

**The 5 gallon bucket, PVC pipes, and heavy duty zip tie can be purchased at hardware stores, and the pump can be purchased at [www.waterpumpsdirect.com](http://www.waterpumpsdirect.com) or other aquarium supply stores.**
