

The Gorilla SSP® Enrichment Database

Name of Item: Nuts and Bolts Toy

Submitted by: Zoo Atlanta

Items Needed:

1. 2 3/8" threaded eye bolts
2. 2 3/8" coupling nuts
3. 1 3/8" threaded rod
4. Approximately 15 assorted washers, nuts, coupling nuts, PVC pieces or anything you want to string on there that spins and makes noise
5. 2 locks

Construction Direction:

1. Start by connecting one eye bolt to one end of the threaded rod using 1 coupling nut.
2. Slide on your 15 or so assorted nut & washers.
3. Attach the other eye bolt to the other end using the other coupling nut.
4. Then weld both ends of each coupling nut to secure it so the device is able to go in with the animals.
5. Secure it to the holding mesh using the 2 locks

Supplies can be purchased from a hardware store.
